

Aditya AUFAR

SAP Technical Consultant | Senior ABAP Developer

Cyberjaya, Selangor, Malaysia | adityaaufar@gmail.com | [linkedin.com/in/adityaaufar](https://www.linkedin.com/in/adityaaufar)

PROFESSIONAL SUMMARY

SAP Technical Consultant and ABAP Developer with 10+ years of experience delivering end-to-end solutions across ECC and S/4HANA. Background spans AMS, rollouts, and greenfield implementations, with hands-on expertise in ABAP, workflow, CDS, OData, Fiori, enhancements, interfaces, forms, and performance optimization. Brings project-level Technical Lead experience across solution design, architecture, development, testing, and cross-functional delivery. Focused on practical, maintainable solutions and progressing toward modern, clean-core SAP development.

CORE EXPERTISE

SAP Development: ABAP Classic, ABAP Objects, ABAP on HANA, CDS Views, OData, SAP Gateway, classic workflow, My Inbox integration

Extensions & Integration: Enhancements, BADIs, user exits, BAPIs, APIs, function modules, interfaces, Smart Forms

Engineering & Delivery: Technical analysis and design, debugging, root-cause analysis, performance optimization, ATC/code quality, technical specifications, testing, transports, production support

Tools & Platforms: ECC, S/4HANA, Eclipse/ADT, SAP Business Application Studio, Web IDE, Git, SAP Solution Manager

Module Exposure: FI, MM, SD, HCM, EWM, TM

Modernization Focus: ABAP Cloud, clean-core extensibility, and released-API principles

AI-Assisted Delivery: Responsible functional-context research, technical analysis, troubleshooting, documentation, and solution review, validated against system evidence and specialist input when required

PROFESSIONAL EXPERIENCE

NTT DATA Business Solutions

SAP Developer | Nov 2023 - Present | Cyberjaya, Malaysia

- Deliver SAP development and application support within an AMS team, resolving incidents and implementing enhancements under agreed SLAs across ECC and S/4HANA environments.
- Independently own development-led AMS tickets from intake to closure, engaging customers directly to clarify requirements, assess business and technical impacts, deliver solutions, coordinate testing and transports, and drive production resolution.
- Apply responsible AI-assisted research to accelerate functional-context analysis, troubleshooting, and documentation, enabling broader ticket ownership, increased delivery capacity, and improved billable contribution while involving functional specialists for configuration and complex process decisions.
- Develop and support ABAP reports, workflows, CDS views, OData/Gateway and Fiori applications, Adobe and Smart Forms, interfaces, APIs/BAPIs, enhancements, BADIs, and user exits.
- Design and implement a custom SAP Business Workflow approval solution integrated with Fiori My Inbox, including configurable approver determination, structured task content, external email notifications, and BAPI-based document updates.
- Build task-specific My Inbox deep links from workflow work-item context and prevent duplicate workflow restarts through approval-state checks in BOR event filtering.

PT Equine Global

SAP Technical Consultant | Jan 2023 - Oct 2023 | Jakarta, Indonesia

Automotive OEM | ABAP Developer / Technical Lead | Jan 2023 - Apr 2023

- Led technical analysis and solution design for an S/4HANA implementation, including layered OData services through SAP Gateway for Fiori applications.
- Delivered ABAP on HANA developments including OO and procedural ALV, CDS views, interfaces, enhancements, user exits, and BAPI/function-module-based data conversions.

Chemicals | ABAP Developer | May 2023 - Oct 2023

- Developed reports, forms, exits, and interfaces for an S/4HANA greenfield implementation; supported specifications, troubleshooting, testing, and knowledge transfer.
- Worked with functional consultants, BASIS, and other technical teams to analyze issues and deliver end-to-end solutions.

PROFESSIONAL EXPERIENCE - CONTINUED

PwC South East Asia Consulting

Senior Associate - IT Consulting | Aug 2022 - Dec 2022 | Jakarta, Indonesia

- Supported consulting engagements involving cloud infrastructure assessment, ITSP documentation, and integration-related project activities.

NTT DATA Business Solutions Indonesia

SAP ABAP Consultant | Jan 2022 - Jul 2022 | Tangerang, Indonesia

- Delivered SAP technical consulting and ABAP development across S/4HANA environments, contributing to solution analysis, development, testing, and cross-functional delivery.

SAP ABAP Consultant / Developer / System Analyst | Aug 2014 - Dec 2021 | Indonesia

- Delivered SAP development across ECC rollout and support engagements and S/4HANA greenfield implementations in the food, oil and gas, consumer packaged goods, and public sectors.
- Developed classic and object-oriented ABAP solutions including reports, forms, workflows, enhancements, user exits, BADIs, interfaces, OData services, and Fiori integrations.

Selected project experience

- Public Sector S/4HANA Greenfield (Oct 2020 - Jun 2021): architected the ABAP backend and custom workflow for a production HCM Personnel Administration Fiori solution that digitized paper-based infotype change requests using OData services, staging tables, document attachments, and background posting through HCM function modules/BAPIs.
- Designed configurable multi-level approval routing based on organizational rules and led four developers across onsite and remote delivery, covering effort estimation, work allocation, technical standards, and coordination with Fiori and BASIS teams.
- Consumer Packaged Goods S/4HANA Greenfield (Mar 2019 - Apr 2020): developed ABAP on HANA reports, forms, enhancements, user exits, and interfaces.
- Oil & Gas Support (Mar 2018 - Feb 2019): combined ABAP Developer and System Analyst duties, covering requirement clarification, technical analysis, debugging, testing, and production support.
- Food Industry ECC Rollout (Jul 2017 - Feb 2018): served as the sole ABAP Developer responsible for end-to-end delivery of reports, forms, user exits, and BADIs.
- Coordinated with users, customers, functional consultants, BASIS, and technical teams throughout analysis, development, testing, implementation, and issue resolution.
